

Capability Statement

VIBFEM PTY LTD

VIBFEM has in excess of 20 years of experience in mining, aggregate, aerospace, railway and automotive industries. Experience on different projects in Europe, North and South America, Africa, Australia and Asia.

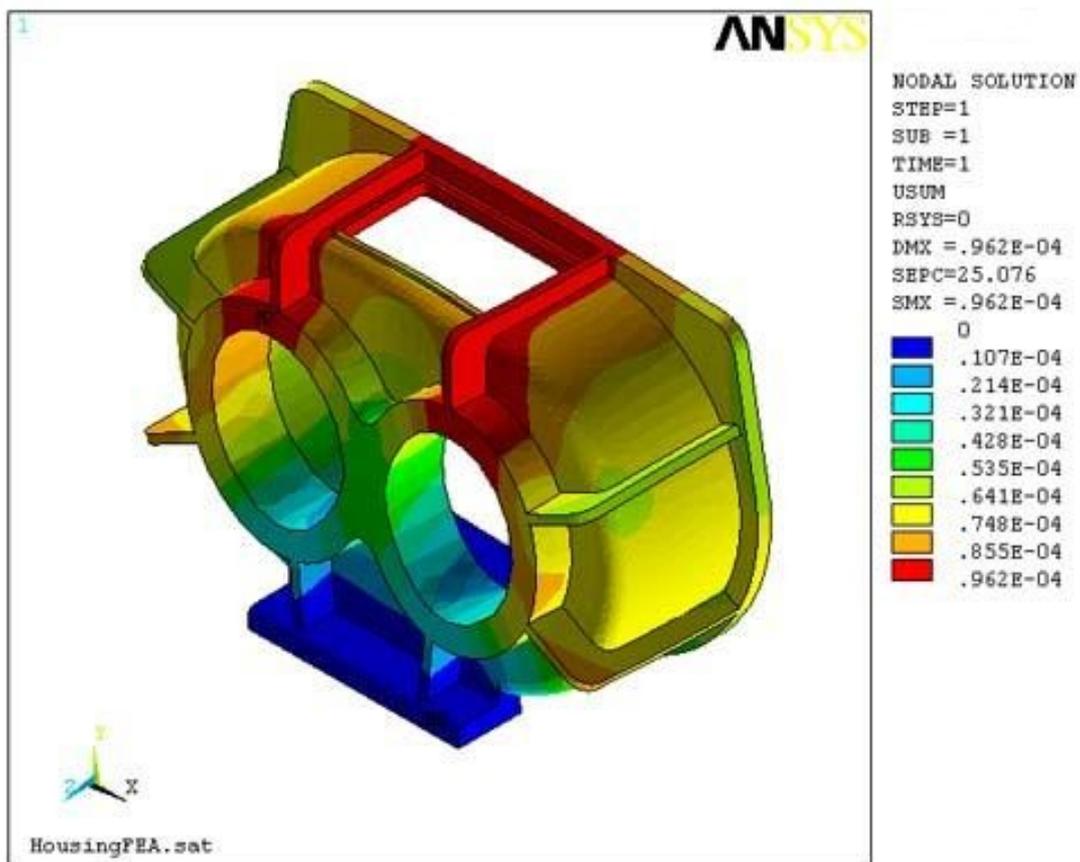

- VIBFEM cooperates with several small companies offering specialized engineering services and creating JVs for bigger project
- Specialise in mining and aggregate plant improvement and design
- Trouble shooting and equipment design
- Extensive experience in vibrating screens and feeder design

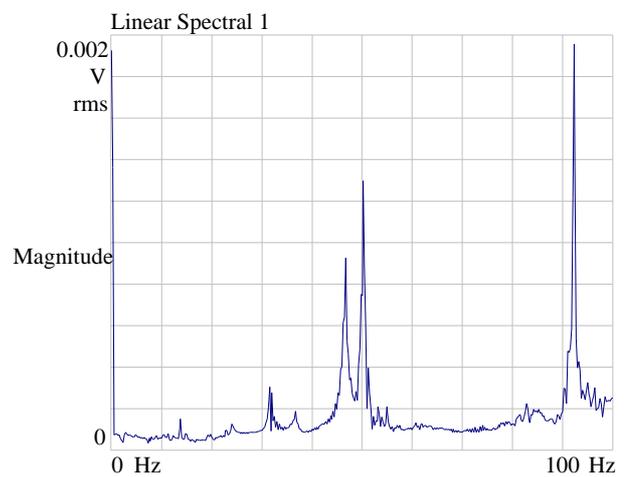

We offer engineering, drafting and 3D modeling services using number of different FEA and 3D modeling software:

- Linear static
- Non-linear static (material and geometry)
- Spectrum analysis
- Transient
- Frequency
- Thermal
- Heat transfer
- Inertia

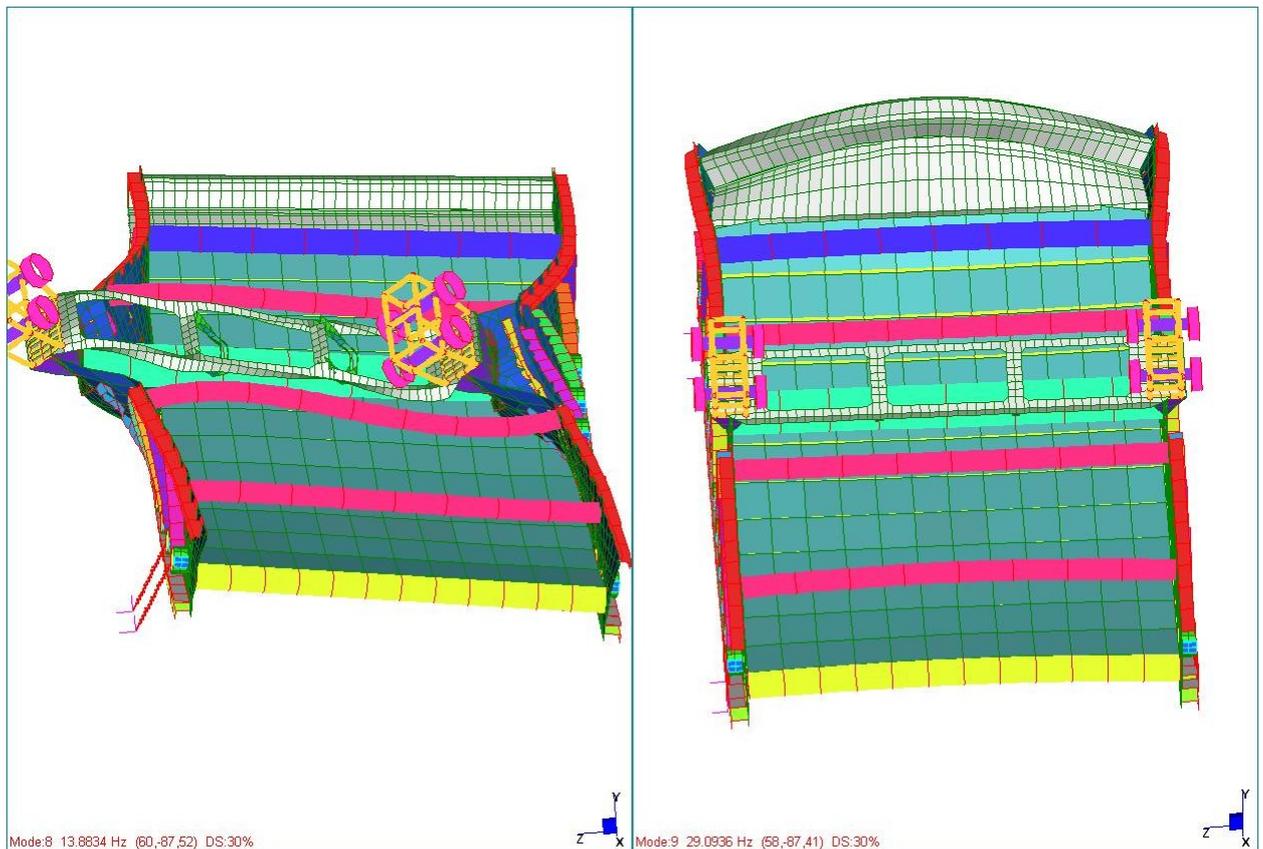

Another Services:

- Frequency analysis (structures, vibrating screens etc.)
- Strain gauging
- Condition assessment and trouble-shooting

VIBFEM Clients :

- CDE Asia
- CDE Ireland
- DBR Fordertechnik GmbH
- Enestee Engineering PVT
- Hanson
- HWE Mining Pty Ltd
- Jade Industries
- MDC Engineering
- Minara Resources
- Minspec
- Newcrest Mining
- Techmex S.j.
- Torsa Machines
